ANATOLIA COLLEGE
STUDENTS' HAND BOOK
(THIRD YEAR)

Dedicated to the Graduating

The handbook is now in its third year. The interest shown by some of our alumni and other friends has been appreciated very much. I trust that many of our Alumni and other friends will subscribe for it this year also. The price is four piastres to the subscribers, and five piastres each for all others. We have made the Handbook larger this year by adding a great many blank pages for memoranda, so that it can be used throughout the year as a Diary.

PRESIDENT'S MESSAGE

TO THE

CLASS OF 1912

If a being from the sublimer spheres of existence were suddenly to appear before you — an angel endowed with knowledge of this and other worlds — if, fastening his deep eyes on you, he were to ask the searching question: What is your purpose in living? How would you answer him? Suppose you give any one of the common answers — I intend to be a literary man — a scientist — a physician — a statesman — a traveler — I intend to make a fortune — could you look into those deep eyes and make such reply? Would it be any answer at all? All such things are, at best, only means to an end — what is the purpose? And what would you think of making that answer which many a young man makes to his own heart, and sometimes to his companions: I intend to have a good time? — that is, give myself to pleasure? You would hardly dare say that to a respectable man; how could you say it to the angel?

If so questioned by such a being, I fear many of us would be struck dumb

—unable to answer at all. I fear many of us would be found as purposeless as a chip floating about on the water. On the contrary, how grand is the character of those who have lived for a purpose! They may be few in the multitude, but they differ as much from the purposeless as flying birds differ from falling leaves. Leo Tolstoi, oppressed with this question: What is the object of my existence?, walked in the forest barefooted, crying out in agony, determined to find the purpose of his life, or put an end to it found that purpose — found the God of his life — found his service, and became mighty.

There was a boy of Galilee, only twelve years old who, at that early date knew and embraced the purpose of his life — from it he never swerved an hour. To do the will of the Father was his meat and his drink. He overcame the momentum of a world going wrong; he became Master of the Ages. The man with a single eye fixed upon the purpose approved of God, and ever conscious of that purpose, is akin to the Divine. Happy is he who has this consciousness, and can say to the angel: For this I live.

ANATOLIA COLLEGE SONGS

ANATOLIA COLLEGE HYMN

Morning cometh, morning cometh,
 Arise, and greet the day!
 Morning cometh, morning cometh,
 Come join the joyful lay!
 Swift comes the dawn with rosy ray,
 The gloomy shadows flee away
 The gloomy shadows flee away.
 It is the day so long and bright,
 It is the dawn of love and light,
 Now joyful hope each bosom thrills
 And morning dances o'er the hills.
 Anatolia etc.

Morning cometh, morning cometh,
 The heav'nly heralds say;
 Morning cometh morning cometh,
 Up! meet the king of day!
 O light divine, rejoice our eyes!
 O sun of Righteousness, arise!
 u n of Righteousness, arise!
 Send, with swift wing, thy healing beam
 O'er hill and valley, plain and stream,
 Till 'neath thy reign, from shore to shore,
 Woe, night and sin shall be no more.
 Anatolia etc.

THE SONG OF THE JUNIOR.

Words and Music by Wonoff x. P. Rience

- 1 I was a Sophomore;
 I looked on Freshmen with disdain: I view-
 ed myself as a considerable personage,
 if not | more;||
 But youthful delusions are past and gone,
 and I am a wiser individual than I
 was be | fore.||
 My Sophomoric friend;
 Let me admonish you that, in your incip-
 ient manhood, by yourself you set not
 too great | store,
 While on your cheek and chin the keen
 razor gathers a harvest of dew, and
 nothing | more.||

2 Be wary furthermore,
Lest, in lush and sappy youth, you as-
sume the air of wisdom hoar.||
Where as that will be more fitting and
seemly when the days of verdancy
| all are o'er.||

My friend of tender years
When your mathematical professor in-
forms you that a whole is greater than
a part, even though it be called an
axiom, believe it never more;||
For, while it is evident that a whole
Sophomore is not much, a part of
| him is more.||

3 O youthful Sophomore
As your attainments are so little, de wise,
drop the soph and cry for more-
| more! oh more!||
And if the powers are propitious, and
you perchance pass your exam. you may
next June become a | JUN-I-OR.||

O youthful Sophomore
(Hum)----- be wise, drop the Soph oh!
----- | more! oh more!||
(Hum)---pass your exams. (hum), become a
| JUN-I-OR||

THE SONG OF THE SOPHOMORE

This musical score is for a piece titled "THE SONG OF THE SOPHOMORE". It is written for a vocal soloist and a piano accompaniment. The score is organized into systems, each consisting of a vocal line and a piano accompaniment line. The vocal line is written in treble clef, and the piano accompaniment is written in bass clef. The key signature is one sharp (F#), and the time signature is 4/4. The score begins with a treble clef staff containing a single melodic line. The second system introduces the piano accompaniment. The third system is labeled "1st Tenor" and "Air", indicating the start of a solo section. The piano accompaniment features a steady eighth-note pattern in the left hand and chords in the right hand. The vocal line enters with a melody that is supported by the piano. The score concludes with a final double bar line.

1st Tenor
Air

THE SONG OF THE SOPHOMORE

1. In the strength of youth rejoicing
 ||: I will take my onward way, :||
 Never doubting, never fearing,
 Be the future what it may.
 I have had full many a rub,
 And I know how to cram;
 Yes I know how to grub,
 And to pass an exam.
 For I've met such foes as these,
 And I've always laid them low,
 ||: Then fearless I'll onward go: ||
 La, la, la, la, la, la, la, la,
 For I'm now a Sophomore!

2. I have been both Prep. and Freshman,
 ||: But my boyish days are o'er: ||
 I have gone up six pegs higher,
 And I'm now a Sophomore!
 I have slain old Algebra,
 I have marched four grammars thro'
 I can talk in various tongues,
 Both the old and the new,
 Yes I'm half way up the height,
 And I'm looking on before,
 ||: For I'm now a Sophomore!: ||
 La, la,, la, etc.

3. In a year I'll be a Junior,
 ||: And a Senior by and by: ||
 And then comes my diploma
 With rank and honors high.
 Yes, I've been both Prep. and Fresh.
 And I'm now a Sophomore,
 And still just ahead
 There are fine things in store.
 And I'm thinking from this time,
 I will do the best I can,
 For I'm now a Sophomore!
 And I'm bound to be a man!
 La, la, la, etc,

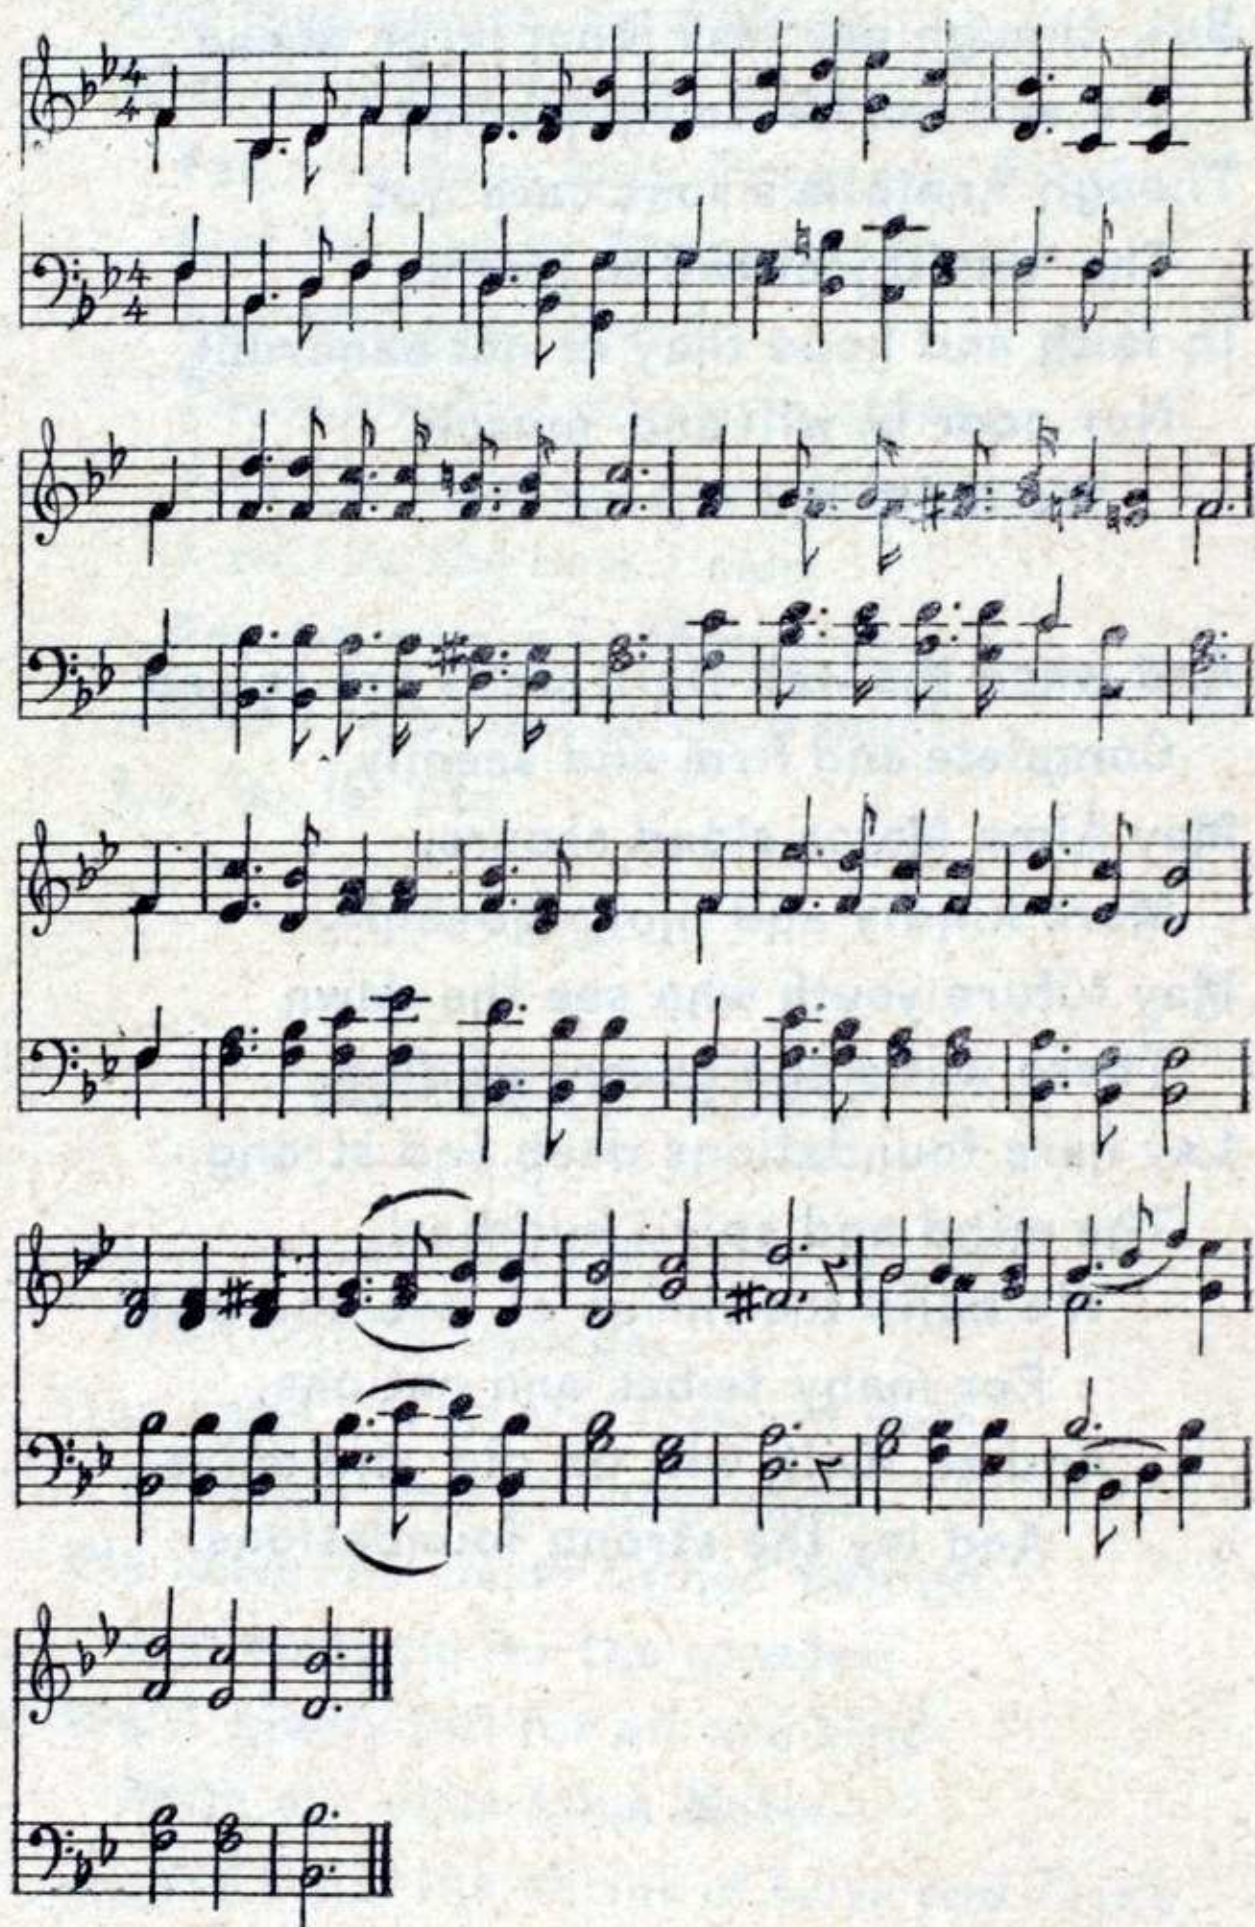

BUILDERS' SONG.

We're sturdy sons and loyal friends
 Of Anatolia College,
 Our eyes are on the forward path
 Of virtue and of knowledge.
 We leave the lesser things behind,
 And struggle for the greater;
 We'll gladly toil for all mankind
 With our dear Alma Mater.
 We build the shrine of Love and Truth
 For many tribes and nations,
 And so, with will we'll dig and delve,
 And lay the strong foundations.

When trouble comes, the weaklings soon
Are from their purpose parted,
But, though our task loom large ahead,
We will not be down-hearted.
Though Anatolia's sons care not
The wealthy crowd to jostle,
In faith and hope they're not bankrupt,
Nor poor in will and muscle.
We build the shrine etc.

And when the well-built walls are raised
Complete and firm and seemly,
May Alma Mater stand secure,
More kindly and more queenly.
May future youth who see the dawn
These walls and towers gilding.
Lay here foundations deep and strong,
The mind and spirit building.
We build the shrine of love and truth
For many tribes and nations,
And so, with will we dig and delve
And lay the strong foundations.

DEAR ANATOLIA

DEAR ANATOLIA

Bright college years, with pleasure rife,
The shortest, gladdest days of life,
How swiftly are ye gliding by!
Oh, why doth time so quickly fly?
The seasons come, the seasons go,
The earth is green, or white with snow;
But that true love shall never fade
That grew 'neath Anatolia's shade.

We all must leave this college home
About the stormy world to roam,
But, though the mighty ocean's tide
Should Anatolia's sons divide,
As round the oak the ivy twines
The clinging tendrils of its vines,
Their hearts will still, on alien ground
To Anatolia be bound.

In after life, should troubles rise
And cloud the blue of sunny skies,
How bright will seem, through memory's haze
The happy, golden, by gone days!
Then be we where we may, on high
We'll ever raise our loyal cry;
Dear Anatolia! true are we
To God, to country and to thee.

COURSE OF STUDY.

The course of study covers eight years. During the first four years most of the work is carried on through the vernaculars. During the last four years all work in Mathematics, History and Science is given in the English language. The study of her own vernacular and of English is required of each student throughout her course. Lessons in plain sewing, dressmaking, embroidery and other forms of fine needle work, ironing and cooking form a part of the required work. All have training in chorus singing. French, Piano and Organ lessons are given to those who pay an additional fee for them.

TERMS OF ADMISSION.

For admission to the First Form the candidate must be able to read and write her own vernacular freely. She must be prepared to pass an examination in Arithmetic in Addition, Subtraction, Multiplication and Division. Satisfactory testimonials in regard to character are required before a pupil is received. For boarding pupils 12 years is the age limit.

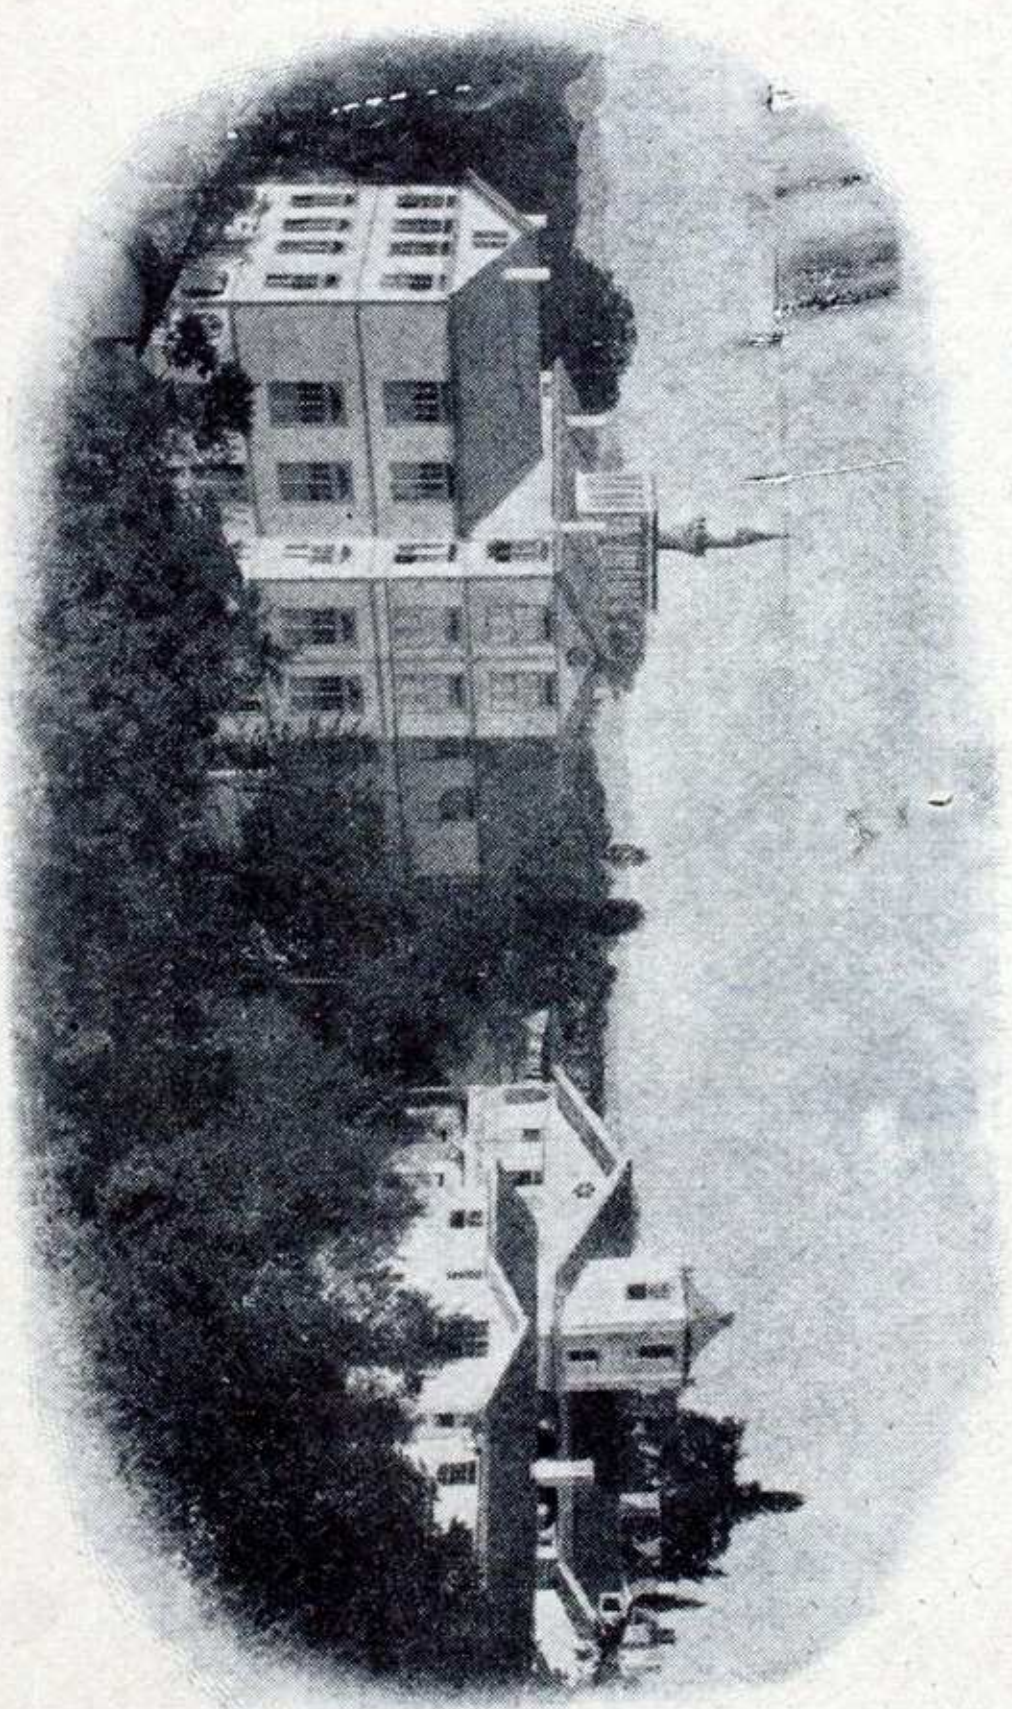

To enter an advanced class the candidate is required to pass examination on the work of the class preceding the one to which she seeks admission.

Entrance examinations are held on the Monday and Tuesday preceding the opening of the first semester. It is important that application for admission be made early.

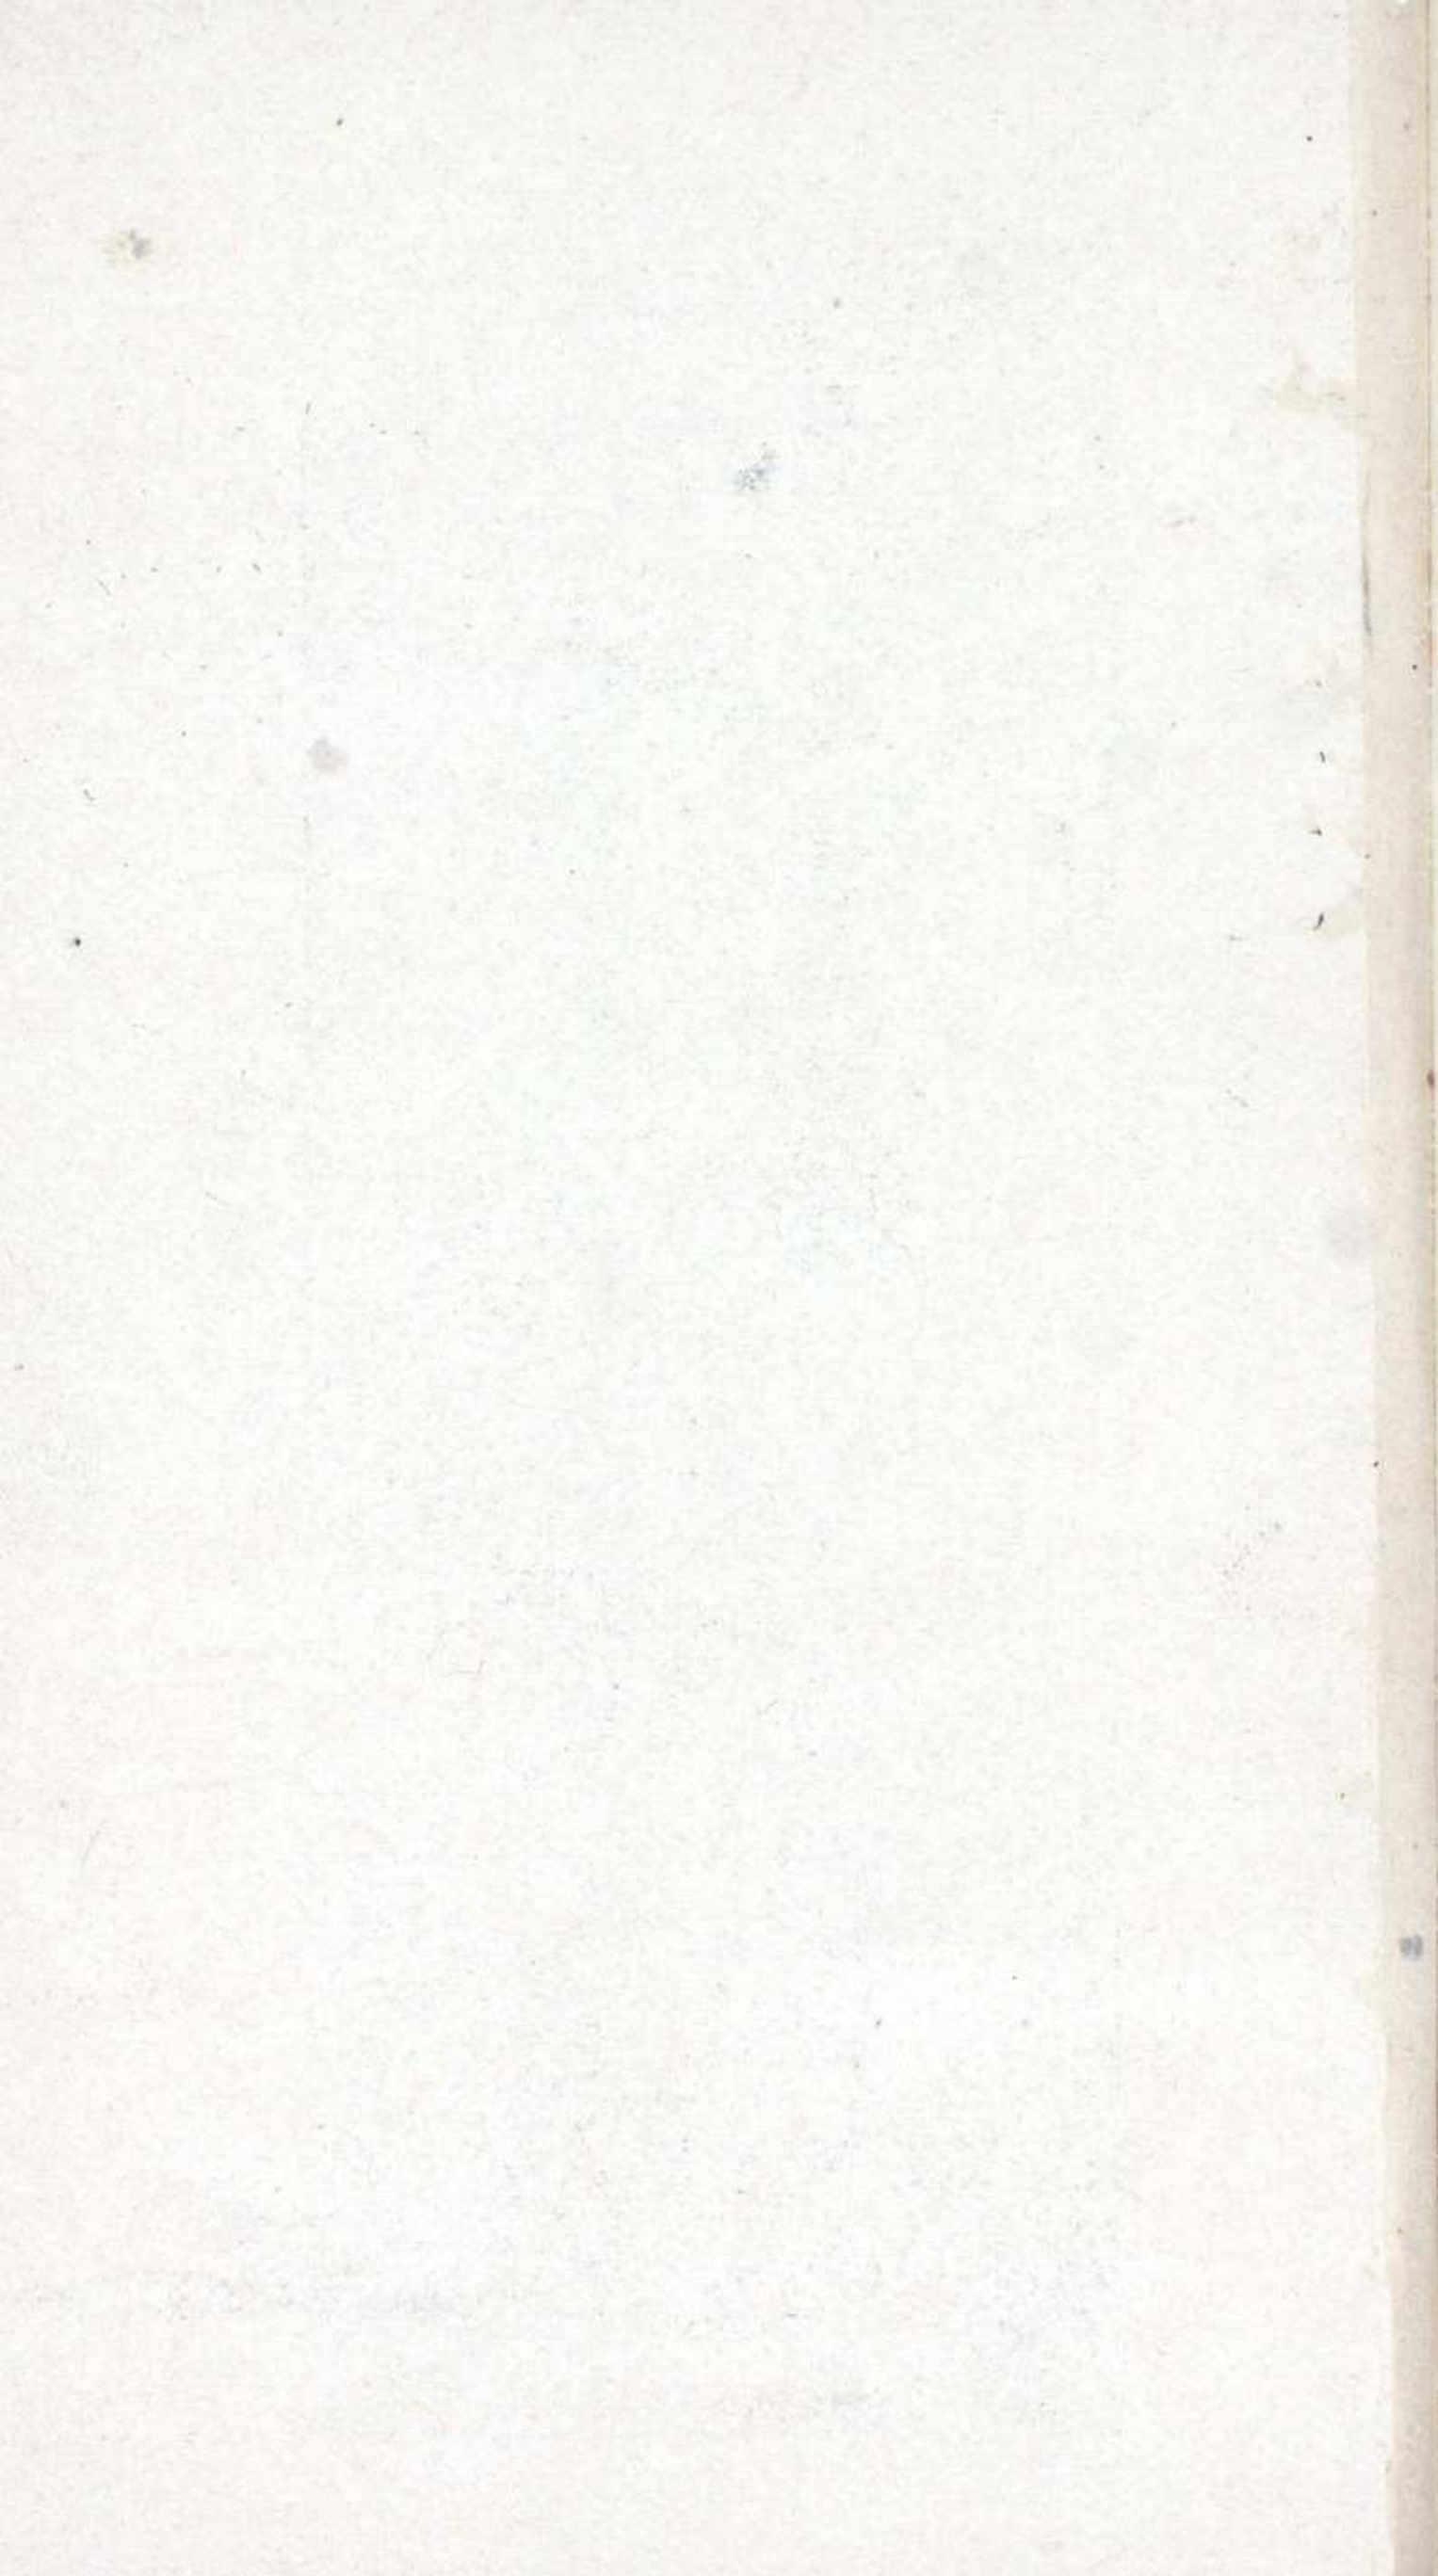

EXPENSES

	L Tq.
The annual tuition of day pupils	1.00

The first payments are due at the opening of the school year when boarding pupils are required to pay L Tq. 5.00 and day pupils L Tq. 0.50 each. Music, bath, laundry and breakage charges are paid in full at the opening of the year. The second payment is due at the beginning of the second semester. Students are not allowed to enter classes until their money obligations are met.

ANATOLIA GIRLS' SCHOOL

THE KING SCHOOL FOR THE DEAF.

The Martha A. King School for the Deaf was opened in 1910 as a department of Anatolia Girls' School. Pupils, both boys and girls, are received at from 6 to 8 years of age. While older pupils may in some cases be received it is important for the attainment of the best results that children enter when within the age limits stated. The methods used are those which have been found most successful in training the deaf in America. Each pupil is taught through his own vernacular reading, writing, speech and speech reading (from the lips). Much attention is given to developing the moral and social side of the child's nature. All are taught sewing and house-work. The boys have regular work in the Anatolia College Carpenter Shop.

The annual charge for boarding pupils is L Tq. 12.00. Applications for admission should be made early.

THE NEW ANATOLIA HOSPITAL

THE NEW ANATOLIA HOSPITAL

Anatolia Hospital is affiliated with Anatolia College. The Hospital Board of Managers are the President of the College, Principal of the Girls Seminary, the station Treasurer, and the American physician. The Hospital now draws patients from a very large area. Patients frequently come eight and ten days' journey to avail themselves of the advantages of the Hospital.

The following statistics will indicate the growth of the Hospital. and give some idea of the extent of the work.

In-patients (patients treated in the hospital) in 1897 - 34, in 1910 - 852.

Of the 852 in-patients, 610 were surgical; 242, medical. 367 Armenians; 279, Truks; 176, Greeks; 30 misc.

In 1910, number of new patients, seen in clinic, - 3690. Number of operations 804.

The Hospital staff consists of two doctors, two foreign nurses, one qualified dispenser, two Armenian nurses, a nurses' training class, and a force of twenty-five servants and helpers.

The nurses' training class receives girls who have graduated from the Girls' Seminary, or who have received an equivalent course of training. In the Hospital they spend three years in practical and theoretical training. While the demand for trained nurses for private nursing among the people is yet in its infancy, we believe there will soon be a large opportunity for those who are prepared to do modern nursing.

The growth of the Hospital and College has made it imperative for the hospital to move out of the college compound.

The western half of the new site is level, but the eastern portion is on the slope of a narrow valley. The main building of the Hospital, named the Towle Memorial Building, is placed along the brow of the slope. From the windows of its wide east front there is splendid and uninterrupted view across the valley and stream, and the wheat fields, orchards, and vineyards of the Marsovan plain, to the lofty mountain range of Ak Dagh, only twenty miles away.

The main entrance and administration offices will be in the center of the

Towle building. The male patients will occupy the southern portion of the ground floor, while the operating rooms and the native doctor's quarters, will occupy the northern end. On the floor above will be the female patients, and the small wards for private patients. On the top story will be quarters for the foreign nurses, supplementary wards, and rooms for native nurses.

A separate block for the dispensary will be built beside the entrance gate. The kitchen and laundry block will be west of the main building; its attic floor will have the dormitories for the female servants. Dormitories for the male servants are provided over the dispensary block.

This is as far as the scheme for the Hospital extends at present. There is however, great need for accommodation for the treatment of tubercular cases. It is hoped before long to provide an extension of the Hospital in which these cases may be placed. This building will be placed to the east of the Towle block, connected there-to by a low corridor.

It is intended to heat the building with hot water, and to provide electric light eventually.

CALENDAR, 1912

Printed in the calendar are those dates which are already settled, but there are many more which are not yet fixed. Therefore, spaces have been left that you may keep an accurate record of College events and your own appointments.

RULES.

RULE A. Undebatable, but remarks may be tacitly allowed.

RULE B. Undebatable if another question is before the assembly.

RULE C. Limited debate allowed on propriety of postponement only.

RULE D. Opens the main question to debate. Motions not so marked do

not allow of reference to main question

RULE E. Cannot be amended. Motion to adjourn can be amended when there is no other business before the house.

RULE F. Cannot be reconsidered.

RULE G. An affirmative vote cannot be reconsidered.

RULE H. In order when another has the floor.

RULE I. A motion to reconsider may be moved and entered when another has the floor, but the business then before the house may not be set aside. This motion can only be entertained when made by one who voted originally with the prevailing side. when called up it takes precedence of all others which may come up, excepting only motions relating to adjournment.

RULE K. A motion to amend an amendment cannot be amended.

RULE L. When an appeal from the chair's decision results in a tie vote, the chair is sustained.

RULE M. Requires a two-thirds vote unless special rules have been enacted.

RULE N. Does not required to be seconded.

GENERAL RULES.

No motion is open for discussion until it has been stated by the chair.

The maker of a motion cannot modify it or withdraw it after it has been stated by the chair, except by general consent.

Only one reconsideration of a question is permitted.

A motion to adjourn, to lay on the table or to take from the table, cannot be renewed unless some other motion has intervened.

On motion to strike out the words "Shall the words stand part of the motion?" Unless a majority sustains, the words are struck out.

On motion for previous question, the form to be observed is, "Shall the main question be now put?" This if carried ends debate.

On an appeal from the chair, "Shall the decision be sustained as the ruling of the house?" The chair is generally sustained.

On motion for orders of the day, "will the house now proceed to the orders of the day?" This, if carried, supersedes intervening motions.

On objection raised to considering questions, "Shall the question be considered?" Objections may be made before debate has commenced, but not subsequently.
